

Out Reaching To the Community

DITO Inc. believes in encouraging individuals to become educated, demand safety within their neighborhoods and to dream the impossible. At DITO Inc., we do not believe in ignoring underprivileged neighborhoods, we see its potential and work to better its challenges. We believe in cultivating the minds of tomorrow and instilling the idea of unity. A community is only as good as its residents; with a mind in motion for change.

How We Do It?

DITO Inc. works to form coalitions within the targeted neighborhood to expound on service impact and longevity. Coalitions are comprised of organizations, businesses, churches and groups within the neighborhood (*i.e.* - *Hot Spots*) who are invested to changing their community. Out of every “Hot Spot” are Community Ambassadors (*5 individuals who work as liaisons and organizers*) to ensure their populations needs are met. Through the collaboration of these “Hot Spots” and “Community Ambassadors”, DITO Inc. attends to the needs of a neighborhood.
